

LENSEX HEAVY DUTY DETERGENT POWER

SABS 20825

Teepol Lensex is a free flowing alkaline, non-caustic, heavy duty detergent powder. It is non-flammable and biodegradable. This product removes and emulsifies all types of soiling from a variety of surfaces.

Teepol Lensex is a product with many applications. Formulated to remove oil and grease from heavily soiled floors, concrete, paved or tile it is also well suited as a degreaser for equipment and components.

DIRECTIONS

Floors

Normal soiling

Brush the area to remove loose dirt. Take a solution of 25g per litre of water and work into the area, leave for at least 15 minutes before wash down with clean water.

Heavy soiling

Scatter Lensex powder over the area to be treated (approximately 100g of Lensex per square meter). Moisten with water and leave to react for a minimum of 15 minutes. Scrub the area and hose off with clean water. Area with ingrained oil may require more than one treatment.

Equipment

Use a 15g per Litre solution to clean surfaces of machinery or equipment. Once the product has had time to react rinse down with clean water.

Components

Soak the component in a 25g per Litre water solution for a minimum of 30 minutes or in extreme cases up to 12 hour. During this period it is advised to agitate the component. Once Lensex has reacted remove the residual soiling and dry.

PRECAUTIONS

Teepol Lensex heavy duty detergent powder is mildly alkaline. Contact with skin, eyes and clothing should be avoided. In case of accidental contact wash with large quantities of water and if necessary seek medical attention.

Copies of NOSA hazardous substance record form 2.17 are available on request.

PACK SIZE 5 X5kg bags.
